MEMORANDUM FOR: The Director

FROM:

:

SUBJECT

: Additional Outlines for Future Presidential Briefings

1. Enclosed are outlines of two future briefings:

A. Soviet Proposal to Ban Mass Destruction Weapons. You had asked whether there was more to this than just propaganda. Although there may be some serious intent to the proposal, Dr. Bowie recommends that you not use this as a briefing item. *OK*

B. Libya's Military Equipment Inventory. Dr. Bowie feels this could be an acceptable briefing if kept very short (less than 5 minutes). You have touched on this subject in a previous Middle East Arms Balance briefing for the President. *OK*

2. Also enclosed is a detailed response to your question on the status of the law of the sea (LOS) conference.

3. Merry Christmas.
